House Plants	This section includes many half hardy plants for the house, conservatory, or sheltered position outside in mild areas. Many make excellent plants for pots - outside for the summer and overwintered in a frost free greenhouse or shed. We grow these in Kent, but can supply them in Staffs to order. We try and grow many of the old favorites that can now be hard to find. See Annual/biennial for 'patio plants' and 'cacti and succulents' section.
