

Petition to Thanet District Council. From The Tenants and Employees of East Northdown Farm.

We the undersigned stand united in the view that we are suffering unfair victimisation, brought by a small but seemingly powerful minority.

We are the people who make our living from businesses at East Northdown Farm. Many have been there since 1998.

During the past year we have been the object of continual complaints of alleged breaches of conditions most of these have been unfounded, if not they have been met by us swiftly and without compromise to the satisfaction of Thanet District council.

We are now subject to around the clock video surveillance installed by the complainant to spy on everyday life not only of our units but the garden centre and William Friends garden.

We feel the main complainant is using the council and its officers and the power they possess not to obtain harmony between Industrial and Residential occupants, but to pursue his own vendetta against our landlord Mr William Friend.

We urge you to come to our aid and inject some sense, into this madness as it is spiralling out of control.
